

Combined Heat and Power Alliance Presents

NATIONAL SUMMIT ON COMBINED HEAT AND POWER: The Role of CHP in a Low-Carbon Future

September 14-16, 2020

A National Summit on Combined Heat and Power: The Role of CHP in a Low-Carbon Future *September 14-16, 2020*

Good afternoon,

From September 14-16, 2020 the CHP Alliance is hosting a virtual summit titled “National Summit on Combined Heat and Power: The Role of CHP in a Low-Carbon Future.” We are expecting over 300 individuals to participate in this virtual conference, which includes over 12 events and over 30 different speakers. To learn more about our virtual conference, please visit our conference website. This National Summit will be an important opportunity to bring together everyone from the industry, as well as national leaders from outside of the industry to learn about and promote the benefits of CHP.

First, I want to thank all of you who have already shown your support for the

event, especially to those that have decided to become a sponsor. Sponsorships are a great way for companies to showcase their CHP work to a diverse group of attendees. That being said, sponsorships for the event are moving extremely quickly and there are only a handful of opportunities left to be a part of the event.

If you are interested in this opportunity, feel free to reach out to Will Sherman at williams@dgardiner.com who is happy to answer any questions that you may have.

Thank you for your continued support of the CHP Alliance.

Kind regards,

Thomas Smith
President of the Combined Heat and Power Alliance

Registration Now Open!

Registration to attend this year's Virtual National Summit on Combined Heat and Power (CHP) is now officially open! The summit, hosted by The Combined Heat and Power Alliance, will feature keynote speakers and panels showcasing the many benefits of CHP including reduced emissions, resilience and reliability, and economic competitiveness. The conference will be particularly focused on CHP's role in decarbonizing electricity, industry and buildings. We invite you to visit the conference [website](#) to see the agenda and a first look at our sponsors in the virtual exhibit hall.

Event Sponsors

Event Promotional Partners

If you are interested in becoming a sponsor or promotional partner for the event, please contact William Sherman, Client and Research Manager at williams@dgardiner.com.

The Combined Heat and Power Alliance, formerly known as the Alliance for Industrial Efficiency, is a coalition of business, labor, contractor, non-profit organizations, and educational institutions who share the vision that CHP can make America's manufacturers and other businesses more competitive, reduce energy costs, enhance grid reliability and reduce emissions.
